Description

Gents Smiths De Luxe wrist watch, made in England, circa 1959. The watch has a 15-jewel hand-winding movement which is working nicely. The watch measures 33mm diameter excluding the winding crown and the lugs. The case is gold plated and has a stainless steel case back. There is some surface scratching but not too detrimental, and evidence of an earlier thread through strap to the back. The lens is in good condition. The signed dial is in good original condition with original hands and a subsidiary seconds dial. A new leather strap has been fitted. The watch will be sent in a new presentation box.
