Description

19th Century Large Gothic Stone Lions Mask Garden Fountain A Superb Architectural Structure, the Fountain dates from the Late 19th Century and is made in reconstituted stone, it is in separate pieces and will need to be reassembled. The circular pond or basin is made in 10 pieces, it is 10ft in diameter when laid out, the centre stone pedestal is rectangular with Lions Masks one on each side and on top of this sits the fountain bowl. The fountain bowl is strong and in one piece it has central hole and seems to have 3 fissures, these are tight and do not move. The Fountain is in naturally weathered condition, with natural wear but no other damage other than the previously mentioned bowl. Needless to say this is a very heavy piece and Delivery options will depend on your Location. The overall height at the centre is 55" and 39" in diameter, the pond sides are 13" high and 10ft in diameter NH57.
