Dimensions

Height = 16.5 cm (6.5")

Width = 10 cm (3.9")

Depth = 8 cm (3.1")

Description

An early carriage clock by F.L.Hausburg of Paris who was working in the mid 19th Century. He produced clocks in various styles, some of which were very decorative and mainly for the very wealthy. This example with the original, early lever platform and striking on a bell. The back plate with the name engraved in script along the base. The large top bevelled glass below the very ornate handle shows the original escapement and interestingly the repeat button is through the top glass, a feature we like very much indeed. A fine 8 day movement which is now fully serviced and overhauled. The case is a 'one piece' design with superb hand engraving and gilding of good colour, all bevelled white glass polished inside and out. The dial showing Roman numerals and the makers name with original 'Trefoil' hands and alarm dial. Please view the large images by clicking through the photos. 12 month RTB GuaranteeMake us an offer !!
