Sold

Item Reference: SA624635

Date of manufacture: 1910

Description

An antique silver Buren pocket watch, circa 1910s. The watch has a nicely jewelled key-winding movement which is working well. The movement is protected by an inner fitted cover and also an inner hinged cover. A winding key is included. The watch measures 54mm diameter excluding the stem and the loop. The case is silver and there are Swiss hallmarks inside the two case backs. The front of the case is in good order with just the odd minor mark. The case back has engine turned detail and a central vacant cartouche. There is some unevenness to the case back. The glass lens has light surface marking from use and a small scratch to the centre nothing too serious at all. The enamel dial is in nice condition. The watch has its original gold hands and blued steel sub second hand. The watch will be sent in a new presentation box.
