

SA625555

1930s Oxford pocket watch by Langendorf

Price

Sold**Item Reference: SA625555****Date of manufacture: 1930**

Description

1930s Oxford pocket watch by Langendorf. The watch has a 15-jewel stem-winding movement, which appears to be a Lanco movement by Langendorf, which is working nicely. The name Oxford was used by Langendorf from the 1930s for their more elegant dress watches. The watch measures 46mm diameter excluding the winding crown and the loop. The case is rolled gold and is in good condition, as is the glass lens. The signed dial has a most charming 3D effect block pattern. It is in its original finish and it is in super condition. Original hands, a subsidiary seconds dial and outer minute markers. The watch will be sent in a new presentation box.
