Description

Gents Omega Seamaster wrist watch, 1966. The watch has a hand-winding movement, calibre 601, which is working nicely. The movement is signed with the Omega name and it also has the serial number 23,250,152 which dates it back to 1966. The watch measures 34mm diameter excluding the winding crown and the lugs. The case is gold plated and the front is in good condition, just a little rubbing in places but you have to look closely to see it. On the back of the watch, there is a patch of wear behind the winding crown. The case back has the Seamaster logo on the outside, and the Omega logo on the inside together with the case reference 135.011 which is correct for the calibre 601 movement. The winding crown has the Omega logo. The lens is in good condition. The signed dial is in its original finish and it has its original hands, centre seconds hand and faceted numbers. There is pale speckling across the dial. A new leather strap has been fitted. The watch will be sent in a new presentation box.
