Description

1937 silver full hunter pocket watch. The watch has a Swiss 15-jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and it is hallmarked inside all three outer covers for Birmingham 1937, with a case maker's mark for the Dennison Watch Case Company. The front cover is in good condition, just one pin prick "ding". The back of the watch has some fairly gentle unevenness. The winding crown pushes in to release the front cover. Inside, the lens is in lovely condition. The white dial is in lovely condition and has blued steel hands, a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box.
