Description

1920s Omega pocket watch and chain. The watch has a stem-winding movement which is working nicely. The movement is signed with the Omega name and the serial number 6,989,492 dates it back to around 1928. The watch measures 46mm diameter excluding the winding stem and the loop. The case has a few little marks to the hinged back but overall the condition is good for such an early piece. The inside of the case back is stamped with the early Omega mark. The acrylic lens is in good condition. The signed dial is in lovely condition. The watch comes with a single chain, 36cm long including the clasps. The watch and chain will be sent in a new presentation box.
