Depth = 7 cm (2.8")

Description

Very distinctive and stylish looking English Art Deco electric clock by the Neltic clock company, now converted to quartz battery so will work on all continents and no winding required! Wonderful blonde wood with brass dial hands and studs for numerals, the segmented dial contrasts very stylishly against the jet black plinth. These clocks are rare, this is our third one in eight years. Great condition and keeps perfect time, what's not to love.
