

SA635707

1930s Swiss stem winding pocket watch and chain

Price

Sold**Item Reference: SA635707****Date of manufacture: 1930**

Description

1930s Swiss stem winding pocket watch and chain. The watch has a good quality nicely jewelled, stem-winding movement which is working well. The movement is protected by an inner hinged. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and is in good condition. Engine turned detail to the back of the watch with a vacant cartouche to the centre. There are a couple of names scratched on the inside of the back covers, probably previous owners. The acrylic lens is in nice condition, as is the white enamel dial with blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with an ornate single albert, 21cm long including the T-bar and the clasp. The watch and chain will be sent in a new presentation box.
