Date of manufacture: 1880

Description

Antique mid size Waltham pocket watch & albertina. The watch has a key-winding movement, American watch co grade, which is working nicely. A winding key is included. The movement is fully signed and the serial number 2655927 dates it back to between August and October 1885. The watch measures 41.4mm diameter excluding the stem and the loop so slightly smaller than a standard 50mm pocket watch, but not as small as a lady's fob watch. The case is silver and has Birmingham hallmarks for 1883. The case is in nice condition with only minor marking from use. The watch glass is in good condition. The white enamel dial is in nice condition. The watch has its original gold hands. The watch comes with a single albertina, stamped sterling, 18cm long including the T-bar and the clasp. The watch and chain will be sent in a new presentation box.
