Description

17th Century Carved Oak Court Cupboard, This Old and roomy cupboard is made in solid Oak and needless to say it is very heavy, luckily it does come into 2 pieces for transportation This is an old and charming rustic piece of carved oak furniture, the top section has a long cupboard enclosed by 2 thick doors and a centre panel, the doors are carved with the wheel of life and the centre panel is the ancient tree of life, the top cornice is carved and this section is supported by turned columns. The lower section has the wavy carving matching the cornice and 2 large doors enclosing an original shelved cupboard, the carving on the door panels is in the Celtic style with interlocking curls and diamonds. This piece dates from around 1660, this is reflected in its condition, it has had the locks replaced and it has been altered to make the top section lift off to give ease of access, this has left a small split in the top but it works well and is very sound when assembled. The cupboard is 63" high, 59" wide and 24" deep CE31. Only items dated up to 1920 can be found on Selling Antiques, to see all of our stock including Mid Century and Art Deco post 1920 please view...
