Description

17th Century French Carved Oak Hall Cupboard This is a truly stunning piece, the cupboard is made in oak and has 3 carved panels on the front of the door, the centre panel depicts a handsome warrior and from the style of his headdress he is contemporary with the piece. The cupboard has a handsome working lock and key, it has panelled sides, there is a shrinkage split on one of them. The front of the cupboard is in excellent condition, however the back leg has had a repair (long ago) and there is a bit of French wood worm damage, this has all been treated and is dead now. The shelves are a later addition but we have left these in as they are useful, taking into consideration its great age the cupboard is in all round good condition. The cupboard is 77" Tall, 34" wide and 25" deep, the cornice is removable MG226.
