## Description

Gents 1930s Omega 20F wrist watch. The watch has a hand-winding movement, calibre 20F, which is working nicely. The movement is signed with the Omega name and the serial number 7862826 dates it back to the first half of the 1930s. The watch measures 22mm wide excluding the winding crown and 32mm high excluding the lugs. The case is stainless steel and the front is in good condition while the back has some surface scratching but overall the condition is very acceptable for such an early piece. The winding crown is a later replacement. The inside of the case back has the early Omega logo. The curved lens is in good condition. The signed dial is in its original finish with original hands, a subsidiary seconds dial and an outer minute track. A new leather strap has been fitted. The watch will be sent in a new presentation box.
