Width = 87 cm (34.3")

Depth = 54 cm (21.3")

## Description

Very elegant antique Swedish cylinder top desk in a Neoclassical style & with some wonderful details. It's rosewood, satinwood, kingwood & other exotic woods. This bureau is in good original condition & I would date it to around the 1920-30's period. It's of extremely high quality. All the drawers are finely dovetailed, well constructed & have solid timber drawer bottoms. One very unusual feature behind the rosewood back is the secret compartment in the back (see images), where it unlocks & reveals secret compartments. The interior behind the cylinder is beautifully fitted out with many drawers, two compartments & a central cupboard with more marquetry. There is a pull out writing surface & a one long drawer below. The grain & patterns of the woods are fabulous. There are many inlays, swags, etc. & the marquetry is exquisite. There are three marquetry panels, one on the cylinder & two on the sides. Please enlarge all the images, because I couldn't possibly describe everything. The tapered legs are rosewood & satinwood, ending with brass feet. One of many signs of quality are the way that the legs are finished on all four sides. Whoever made this item, had a very keen eye ...
