Date of manufacture: 1960

Description

Gents Corona wrist watch, circa 1960. The watch has a Swiss 17-jewel hand-winding movement, calibre AS 1560, which is working nicely. The watch measures 33mm diameter excluding the winding crown and the lugs. The case is plated and it is in super condition. The screw-on case back states that the watch is waterprotected but, as with any vintage watch, it should be kept away from water and moisture. The lens is in good condition. The signed dial is in its original finish and it has a most interesting Egyptian inspired design. A new leather strap has been fitted. The watch will be sent in a new presentation box.
