Description

Gents 1950s Chronographe Suisse in super condition. The watch has a hand-winding movement, a Landeron 248, which is working nicely. The watch measures 37mm diameter excluding the crown, buttons and lugs. The case is in very nice condition with just a little marking to the case back, nothing serious at all. The lens is in very good condition. The signed dial is in excellent condition with original hands, a subsidiary dial for constant seconds and another to record up to 30 minutes. The watch has its original thick leather strap. All in all, a super example of a Chronographe Suisse in excellent original condition. The watch will be sent in a new presentation box.
