Gents 9ct gold Electa wrist
watch, 1918

Price

Sold

Item Reference: SA640796

Date of manufacture: 1910

Description

Gents 9ct gold Electa wrist watch, 1918. The watch has a Swiss 17-jewel hand-winding movement which is working nicely. The movement has been identified as an Electa. The watch measures 34mm diameter excluding the onion winding crown and the fixed wire lugs. The case is 9 carat gold and there are hallmarks inside the screw-on case back for London 1918. The case is in good condition. The acrylic lens has very light marking, difficult to see the marks with the naked eye. The white enamel dial has a few hairline cracks but they are difficult to see with the naked eye. A new leather strap has been fitted. The watch will be sent in a new presentation box.
