Description

An antique 1919 silver Waltham pocket watch. The watch has a key-wound movement which is working nicely. (A winding key is included)The movement is the Sterling grade and the serial number 22575144 tells us that it was made in 1919. The movement is protected by an inner hinged cover. The watch measures 52.3mm diameter excluding the stem and the loop. The case is silver and has Chester hallmarks for 1919 with a maker's mark for Isaac Jabez Theo Newsome . The case has light surface marking from use and a small "ding" to the back but overall it is in nice condition for an 1910s piece. The glass lens is in nice condition. The signed enamel dial has a couple very faint hairline cracks to the bottom although not noticeable, but otherwise it is in nice condition. The watch has its original blued steel hands. The watch will be sent in a new presentation box.
