Description

The watch has an English key-wound movement, which is working nicely. A winding key is included. The movement is protected by an inner fitted cover. The watch itself measures 51.8mm diameter excluding the stem and the loop. The case is silver and there are hallmarks inside the case backs for Birmingham 1902 together with a case maker's mark W.E. (William Ehrhardt Ltd Time Works, Barr Street, Hockley, Birmingham). The case has light surface marking from use but overall it is in nice condition. The acrylic lens is in nice condition. The enamel dial has several faint hairline cracks although hardly noticeable to the naked eye but otherwise is in good condition. The watch has blued steel hands. The watch will be sent in a new presentation box.
