Sold

Item Reference: SA640955

Date of manufacture: 1950

Description

Gents 1950s Mondia wrist watch with power reserve indicator. The watch has a 21-jewel automatic movement, calibre AS1386N, which is working nicely. The watch measures 33mm diameter excluding the winding crown and the lugs. The case is stainless steel and it is in good condition. The inside of the case back is signed Mondia. This name was registered by Paul Vermont & Co of La Chaux-de-Fonds. The screw-on case back states that the watch is waterproof but, as with any vintage watch, it should be kept away from water and moisture. The lens is in good condition. The signed dial is in its original finish with original hands, centre seconds hand and a power reserve indicator. There is a little marking to the hands and the infill has been removed over the years. A new leather strap has been fitted. The watch will be sent in a new presentation box.
