

SA641206

Gents 1950s Exactus chronograph

Price

Sold**Item Reference: SA641206****Date of manufacture: 1950**

Description

Gents 1950s Exactus chronograph. The watch has a hand-winding movement, believed to be a Landeron 51, which is working nicely. The watch is a very good size at 38.5mm diameter excluding the winding crown, buttons and lugs. The case is gold plated and it is in lovely condition, as is the lens. The signed dial is in good original condition, just the odd minor mark but nothing serious at all. The chronograph is operated by pressing the top button to start the chrono, and the bottom button to then stop and then re-set to zero. There are two subsidiary dials, one for constant seconds and the other to record up to 30 minutes. The watch has a vintage leather strap. The watch will be sent in a new presentation box.
