Description

Antique Waltham full hunter pocket watch, 1919. The watch has a stem-winding movement, grade 620 which is working well. The fully signed movement has 15 jewels and the serial number 22642592 which dates it back to 1919. The movement is protected by an inner hinged cover. The watch measures 51.6mm diameter excluding the winding stem and the loop. The case is gold plated and was made by the Illinois Watch Case Company. The case has light surface marking from use and light wear to the edge of the front cover but overall it is in nice condition for a 1910s piece. The winding crown pushes in to open the front cover. Inside there is a glass lens in nice condition. The signed dial has a very faint hairline crack to the outer edge at 8 o'clock although hardly noticeable but otherwise it is in nice condition. The watch has its original blued steel hands. The watch will be sent in a new presentation box.
