Description

1930s Swiss pocket watch. The watch has a stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding crown and loop. The case is gold plated and it is in lovely condition, just very minor age related marking, nothing serious at all. The glass is in good condition. The dial is in lovely condition and has a slightly sunken centre and sub seconds dial. The watch will be sent in a new presentation box.
