Description

The watch has a Swiss 15 jewel stem-winding movement which is working well. The watch measures 46.5mm diameter excluding the winding crown and the loop. The rolled gold case has some rubbing to the plate around the edges and a little unevenness to the back. The watch glass is in good condition. The gold coloured harlequin dial is signed Tempo with Swiss Made at the bottom, it is in its original finish and in good condition with just a little marking. The hands are a particularly handsome feature, and there is a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box.
