

SA642040

1930s Vertex pocket watch

Price

Sold**Item Reference: SA642040****Date of manufacture: 1930**

Description

1930s Vertex pocket watch. The watch has a stem-winding movement with snail cam regulator (identified as a Vertex movement) which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and it is in lovely condition, the engine turned detail to the back is still nice and crisp. The watch glass is in lovely condition. The white dial has a couple of faint hair line cracks but they are difficult to see with the naked eye. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box.
