Description

A rare Universal Geneve Tri-Compax wristwatch. A silvered dial with dot numerals indicating the hours and a constant subsidiary seconds dial to 9 o'clock. This watch features a chronograph function activated by the pushers to the side of the case, unusually this features a 12 hour register as well as a 30 minute register to 6 o'clock and 3 o'clock respectively. At 12 o'clock the day date function is showing, with days of the week and month registers in apertures either side of the Universal Geneve script. Completing the full calendar, the date of the month and the moonphase dial are incorporated into one subsidiary dial at 12 o'clock. A jumbo 'Enversteel' case bearing the Universal Geneve logo. Case reference 22536. An exceptionally high quality caliber 287 mechanism signed Universal Geneve. Serial numbers date this watch to circa 1946. Case Width 37mm From Kembery Antique Clocks Ltd you can expect a genuine wristwatch supplied with a presentation box that is in full working order and sold with 12 months guarantee.
