

SA643556

1930s Omega pocket watch
and chain.

Price

Sold

Item Reference: SA643556

Date of manufacture: 1930

Description

1930s Omega pocket watch and chain. The watch has a stem-winding movement, calibre 43L, which is working well. This particular movement is signed with the Omega name and the serial number 8881818 which dates it back to the late 1930s. The movement is protected by an inner hinged cover which has a previous owners name scratched on it dated 1941. The watch measures 50.6mm diameter excluding the winding stem and the loop. The case is nickel and has the Omega triangle on the inside of the case back. The case has light surface marking from use and a mild unevenness to the back but overall it is in nice condition for a 1930s piece. The glass lens is in good condition. The signed dial is in nice condition. The watch has gold coloured hands and a blue steel sub seconds hand. The watch comes with a single albert, which measures 28.5cm long including the T-bar and the clasp. The watch will be sent in a new presentation box.
