Description

Antique silver Rotherhams pocket watch, 1907. The watch has a stem-winding movement which is working nicely. The movement is signed 'Rotherhams, London', and it is all protected by an inner hinged cover. The watch is a good size at 53.3mm diameter excluding the stem and the loop. The case is silver and there are hallmarks inside both of the case backs for Birmingham 1907 with a maker's mark for John Rotherham. The case has a couple of surface "dings" and a mild bruise to the back. The engine turned detail has some wear from use but overall it is in nice condition for a 1900s piece. The watch glass is in nice condition. The signed dial has a very faint hairline crack between the sub seconds dial and the centre but overall it is in nice condition. The watch has a pin set mechanism which adjusts the hands, gold hands and a blued steel sub seconds hand. The watch will be sent in a new presentation box.
