Description

Good example of a Windsor stick-back farmhouse chair dating from the early 1900s. The frame is made of beech with a solid elm seat and elm arms. The turned legs are united by an H-stretcher. It has a beautiful finish with a rich colour and patina. The chair stands approximately 40" (102cm) high, the seat is 18" (46cm) deep and arm to arm the chair is 21 1/2" (55cm) wide. The seat itself is 16 1/4" (41cm) high. It is in good condition and is strong and sturdy with no signs of worm or any major damages. There are signs of age and use and some marks and light scratches on the seat and a small split near the front (see photo) but nothing detrimental.
