Description

We are delighted to offer this huge pair of French etched glass windows and the glass is perfect. They have been removed from a chateau in Northern France, dating to the early to mid 19th Century. I have never seen such an incredible pair of windows as these, the glass is thick, plate glass so they are heavy but also safe. They would loom amazing in a new extension or internally as a divider a real talking point. Each Window 285 cm High by 150 cm wide.
