Description

Circa 1900-1930 a fine quality, tall bronze lamp with three lights and the original on/off chain switches, in need of a little restoration. We hope to put improved images on the website soon, but please email us if you require further information. The lamp measures 66cm in height to the very top of the finial which unscrews to allow a shade to be fitted; the triangular base measures 14.5cm on each side and the lamp weighs 2.2kgs. It needs rewiring and we have left the lamp holders 'as is' for the buyer to decide whether to restore the original pull switch mechanism, or remove it. There are 3 original chains, one came away from the lamp holder but is still available. Postage and packing within the UK mainland only is included in the price and for remote parts or abroad, please contact us for a delivery quote.
