Description

Gents 1960s Olympia Sport wrist watch. The watch has a Swiss 15-jewel hand-winding movement, calibre AS1240, which is working nicely. The watch measures 32mm diameter excluding the winding crown and the interesting lugs. The case is gold plated and overall is in good condition for its age, just the odd minor mark. There is an inspection window to the back of the watch so that the movement can be viewed. This rear lens has some scratching. The lens to the front of the watch is in good condition. The signed dial is in its original textured finish and it has its original hands and centre seconds hand. It is surrounded by a transparent chapter ring with numbers and markers. A new leather strap has been fitted. The watch will be sent in a new presentation box.
