

SA647280

Antique Omega pocket watch and chain

Price

Sold**Item Reference: SA647280****Date of manufacture: 1910**

Description

Antique Omega pocket watch and chain. The watch has a stem-winding movement which is working nicely. As well as being signed with the Omega name, the movement has the serial number 4,201,281 which dates it back to around 1913. The movement is protected by an inner hinged cover; this inner cover has some scratches where it has been opened in the past. The watch measures 50mm diameter excluding the stem and the loop. The case is nickel and overall it is in good condition, just a little gentle unevenness and the odd minor mark, nothing serious at all. The watch glass is in good condition. The signed enamel dial has damage between 11 and 12 and some hairline cracks. The watch comes with a single chain, 24cm long including the T-bar and the clasp. The watch and chain will be sent in a new presentation box.
