Description

Hamilton white gold filled pocket watch, 1913. The watch has a stem winding movement, grade 975. This is a good quality movement with a swan neck regulator. This calibre was in production from 1897 until 1915. The patterned movement is fully signed and the serial number dates it back to 1913. The watch measures 50mm diameter excluding the winding stem and the loop. The case is white gold filled and it is beautifully detailed, and in very nice condition. The acrylic lens is in good condition, just very minor marking visible at certain angles. The signed dial is in lovely condition. The watch comes with a single chain, 26cm long. The watch and chain will be sent in a new presentation box.
