Description

Antique silver pocket watch, Teddington. The watch has a Swiss key-wound movement which is working nicely. The movement is protected by an inner fitted cover. The watch measures 53mm diameter excluding the stem and the loop. The case is 935 silver and there are Continental hallmarks inside the case back. Overall the case is in good condition, just a fairly shallow bruise on the bezel and slight unevenness to the case back. The watch glass is in good condition. The dial is signed with the name of the original retailer, John White, Teddington. There is a hairline crack running through number 2 but it is faint. The watch will be sent in a new presentation box.
