Description

Antique Waltham pocket watch, 1892. The watch has a stem-winding movement, American Watch Company grade, which is working nicely. The movement is fully signed and has the serial number 5275043 which dates it back to between May and September 1892. The watch measures 49.2mm diameter excluding the winding stem and the loop. The case is the 14 ct gold filled model from the Dennison Watch Case Company. This is a good quality case that was originally guaranteed to wear 25 years. The case has light surface marking from use and some mild bruising to the back but overall it is in nice condition for an 1890s piece. The glass lens is in nice condition. The dial is in nice condition. The watch has its original gold hands and a blued steel sub seconds hand. The watch will be sent in a new presentation box.
