Description

A pair of bronze cherub candlesticks standing on columns with the Victorian Kite Mark clearly visible on both, dating them to 1864. They weigh about 2.8kgs each, and measure 43cm in height, with a 12cm diameter base. The quality of the casting can be seen in the excellent details throughout, and both are in good condition with no signs of damage or repair. Each pillar has a small purpose made drill hole for a small peg at the back on the base. In those days this was done to secure the candlesticks to a wall or cabinet - see photo 12. Postage and packing for the UK mainland only is included in the price and for remote areas or abroad, please contact us for a delivery quote.
