

SA649744

Antique Swiss pocket watch

Price

Sold**Item Reference: SA649744****Date of manufacture: 1930**

Description

Antique Swiss pocket watch. The watch has a good quality nicely patterned stem-winding movement with swan neck regulator which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding crown and the loop. The case is 14ct gold plate. The front is in good condition, just the odd minor mark to the bezel. The hinged case back has some marking. The acrylic lens is in good condition. The dial is in good condition. There is a hairline just to the sub seconds dial but it is faint to the naked eye. The watch will be sent in a new presentation box.
