Description

Antique silver pocket watch, 1917. The watch has a 15-jewel stem-winding movement which is working nicely. The movement is protected by a silver inner hinged cover. The watch measures 49mm diameter excluding the winding crown and the loop. The case is silver and there are hallmarks inside the hinged case back for Glasgow (import mark), 1917. The case is in good condition, just a couple of pin prick dings to the engine turned detail on the back of the watch, nothing serious at all. The watch glass has a little nibbling to the bevelled edge but barely noticeable to the naked eye. The dial is in lovely condition. The watch will be sent in a new presentation box.
