Description

This is a fabulous example of a vintage mens watch made by the premium Swiss make Omega. This is the fully automatic calibre 332 bumper movement. An Omega "bumper" is a vintage Omega that has a "bumper" automatic movement rather than a full rotation rotor automatic. Everything about this watch is original, the two tone textured dial has not been restored or retouched in any way, it has the Omega logo on the original winding crown and buckle. It is fully marked Omega on the dial, movement and case as you would expect. The case has been professionally cleaned and polished so it is absolutely pristine. The watch case measures 38mm in diameter not including the crown which makes this a jumbo oversize model. This is a very rare model and in the best original condition we have ever come across. Omega are one of the most exclusive watchmakers in the world and this watch certainly has that understated elegance that whispers class. Overall this watch is in outstanding condition and highly sought after by Omega collectors. The watch has been fully serviced and is guaranteed to be a genuine Omega in all respects. It has been professionally overhauled, the process is hi...
