Date of manufacture: 1930

Description

1930s Frenca Swiss pocket watch and chain. The watch has a Swiss stem-winding movement which is working well. The movement is stamped Frenca, 7 jewels, 2 adjustments, Swiss made. The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is nickel and has light surface marking from use and some bruising to the back but overall it is in nice condition for a 1930s piece. The watch has a screw on front and back. The watch has a glass lens which is in nice condition. The white enamelled dial has several faint hairline cracks although hardly noticeable to the naked eye. The watch has its original blued steel hands. The watch comes with a single albert chain which measures 28.5cm long including the T bar and clasp. The watch and chain will be sent in a new presentation box.
