Gents 1950s 9ct gold Longines wrist watch

Price

Sold**Item Reference: SA650490****Date of manufacture: 1950**

Description

Gents 1950s 9ct gold Longines wrist watch. The watch has a 19-jewel automatic movement, calibre 22AS, which is working nicely. The movement is fully signed with the Longines name and the serial number 9,145,635 which dates it back to 1953. In 1946, the 22A was the first automatic movement manufactured by Longines, the 22AS was a centre seconds variant. The watch measures 33.5mm diameter excluding the winding crown and the lugs. The case is 9 carat gold and there are hallmarks inside the case back for London 1956 together with the Baume mark, the importers of Longines watches into the UK and the Commonwealth. The front of the case is in good condition. The case back has some unevenness. The winding crown is a later replacement. The lens is in good condition. The signed dial has been professionally re-finished to a high standard. A new leather strap has been fitted. The watch will be sent in a new presentation box.
