Item Reference: SA650841

Date of manufacture: 1910

Description

Antique Goliath pocket watch and chain, circa 1910s. The watch has a nicely jewelled stem-winding movement which is working well. The movement is protected by an inner hinged dust cover with an old watch paper from J Cameron & Son, Kilmarnock. The watch measures 65mm diameter excluding the stem and the loop so it is larger than the standard 50mm pocket watch. The case has light surface scratching to the back but overall it is in nice condition for a 1910s piece. The watch has a gold inner bezel around the lens. The glass lens has light surface marking from use but overall it is in nice condition. The enamel dial has an old repair mainly under the bezel and several very faint hairline cracks although hardly noticeable but otherwise is in good condition. Blued steel hands (initially pin-set), a subsidiary seconds dial and an outer minute track. The watch comes with a heavy gauge watch chain with graduated links and a coin dated back to the late 1800s. The chain measures 32cm long including the T-bar and the clasp. The watch will be sent in a new presentation box.
