Description

This is a very fine example of a gents classic wristwatch made by the world renowned premier Swiss maker Omega. This is the fully automatic calibre 332 bumper movement. An Omega "bumper" is a vintage Omega that has a "bumper" automatic movement rather than a full rotation rotor automatic. The reference number is 2866. It is quite striking, the dial is in mint condition having been fully restored. The solid 18ct rose gold case measures 34.5mm in diameter excluding the winding crown. It has the Omega symbol on the crown. A new glass has been fitted and the case has been professionally polished so it is in superb condition. As you would expect the watch is fully marked on the dial, movement and case. It comes with a brand new high quality presentation box and premium black leather strap. The case is fully hallmarked. Omega are one of the most exclusive watchmakers in the world and this watch certainly has that understated elegance that whispers class. Overall this watch is in wonderful condition and highly sought after by Omega collectors indeed it looks as if it was rarely worn. The watch has been fully serviced and is guaranteed to be a genuine Omega...

Internal Ref: omega bumper
