1930s Omega pocket watch,
chain and compass fob

Price

Sold

Item Reference: SA653157

Date of manufacture: 1930

Description

1930s Omega pocket watch, chain and compass fob. The watch has a 15-jewel stem-winding movement, calibre 40.6L.T2.15P, which is working nicely. The movement is fully signed and the serial number 7,716,300 dates it back to the early 1930s. The movement is protected by an inner hinged cover which has some unevenness. The watch measures 48mm diameter excluding the winding stem and the loop. The case is nickel. The front is in good condition. The hinged case back has the Omega logo inside, there is some unevenness to the case back. The watch glass is in good condition. The signed dial has a faint hairline crack, about 1cm long, and a small old repair just above the centre, but you have to look carefully to see these. Original hands, subsidiary seconds dial and an outer minute track. The watch comes with a double albert, with each chain measuring 18cm long. There is also a shorter chain attached which has a double sided compass. The watch and chain will be sent in a new presentation box.
