Description

Antique silver Zenith pocket watch. The watch has a high grade stem-winding movement which is working nicely. The movement is fully signed and the serial number 2,391,455 dates it back to 1919. The movement is protected by a silver inner hinged cover. The watch measures 48mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside both of the back covers for Glasgow 1919 with a maker's mark for the Zenith Watch Company. The case has a small bruise to the bezel and some gentle unevenness to the hinged case back. The acrylic lens is in good condition. The dial is in lovely condition and has blued steel hands, a subsidiary seconds dial and outer minute markers. The dial was left blank during manufacture so that the original retailer could add their details if so desired. The watch will be sent in a new presentation box.
