## Description

Antique Waltham full hunter pocket watch, 1925. The watch has a stem-winding movement, Traveler grade, which is working nicely. The nicely patterned movement is fully signed and the serial number 24,823,541 dates it back to 1925. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and it was made by the Dennison Watch Case Company, an English company who made the majority of cases for Waltham UK. The case has a slight "ding" to the front and light surface marks but overall the condition is good. The winding crown pushes in to open the front cover. Inside there is an acrylic lens which is in good condition. The signed dial is in super condition and it has its original blued steel hands, a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box.
