Dimensions

Height = 27 cm (10.6")

Width = 18 cm (7.1")

Depth = 27 cm (10.6")

Description

Antique mid 20th century ship telegraph maritime instrument, c 1940. It looks to be WW11 period and is marked with the makers name 'A. Robinson and Co, Liverpool'. I was told it was from a WW11 minesweeper? It is in good original condition with minor surface wear to the case. The main body is painted red which appears original. The wheel may have been repainted as it is a mix of silver and black paint. The wheel rotates well and the dial moves freely across the various settings. The internal workings appear to be complete (but I am not an expert). It has aged well with good colour/patina and nice distressed look to the paintwork. Please refer to the detailed photographs and feel free to contact me with any questions or if you would like to view the item. Size: 27 cm tall x 18 cm wide x 27 cm deep. I will happily ship worldwide.

Internal Ref: 47/19
