Description

Exceptional Dutch centre table, the parquetry top with an elaborate design of geometric motifs within circles, with oyster veneer infills, over an inlaid frieze, raised on twist-turned column legs united by an inlaid elongated X-framed stretcher, and supported on ball feet. The table is in superb condition, with very minor losses to the veneers, and has a fine surface polish. Basically circa 1690, with possible 19th century alterations. Although apparently in substantially original condition, the frieze has at some point been expertly cut down one side and a drawer fitted. The top, which is of superb quality, has been inlaid on its underside, perhaps indicating that it was formerly (or formerly intended to be) the door of a very large cupboard. Width: 45.5 inches; 115 cms Depth: 32.5 inches; 83 cms Height: 29.5 inches; 75 cms
